Differences between absorption and		intestines.....	20	Pressure-cooking.....	19	Zidovudine.....	7
assimilation.....	18	Intestinal bacteria.....	21, 22	Product suppliers.....	41		
Differences: natural and		Intestinal inflammation, causes of		Progression to Aids.....	7		

ACKNOWLEDGEMENTS

The author would like to thank *Continuum* magazine (sadly now discontinued), the Rethinking Aids website, and their contributing scientists and writers—on whose work or articles much of the first part of this manual is based—especially Dr Peter Duesberg, Professor Alfred Hässig, Dr Eleni Papadopulos-Eleopulos, Dr Stefan Lanka, Dr Roberto Giraldo, Dr H Kremer, Dr David Rasnick, Neville Hodgkinson, the late Huw Christie, John Lauritsen, Philippe Krynen, Michael Verney-Elliott and Christine Johnson. Publications by Great Smokies Laboratory on liver detoxification have also been of especial help.
